SKILLS

Languages:	C++, Java, C, Python,R
Frameworks:	HTML, CSS, JS, Bootstrap, React, Java Spring boot
Tools/Platforms:	MySQL, Power BI, Java Swing, Tkinter, NLP
Soft Skills:	Time Management, Critical Thinking, Resilience, Persistence Under Pressure

PROJECTS

Dynamic AI Chatbot Python, Tkinter, NLP, Pygame, OpenAI API	August 2025
<ul style="list-style-type: none">Collaborated on developing an intelligent chatbot system capable of understanding user intent and generating human-like responses using NLP and AI models.Designed and implemented an interactive GUI with Tkinter featuring Light/Dark mode toggle, real-time chat logging, and responsive user input handling.Integrated Pygame for audio and visual enhancements, creating a more engaging and interactive communication experience.Focused on usability, modular design, and efficient state management to ensure smooth performance and easy scalability for future AI-based features.	

EventSphere College Gamification System Java, Java Swing, JDBC, MySQL	March 2025 – April 2025
<ul style="list-style-type: none">Developed a Java-based desktop application to manage 50+ academic events, handling registrations, results, and participant records for 500+ users.Implemented role-based access (Faculty & Higher Authority) with secure login and real-time event tracking, boosting administrative efficiency by 60%.Automated result generation and data storage using MySQL, reducing manual workload by 70% and enabling instant report retrieval.	

Dynamic Movie Review Website HTML, CSS, JavaScript, Bootstrap, React, MySQL	December 2024
<ul style="list-style-type: none">Built a responsive movie review platform with dynamic content fetched from TMDb API, enabling real-time updates and user interactions.Designed a dark-themed UI using Bootstrap and JavaScript, improving user experience and cross-device compatibility.Optimized search and filtering functionality with JavaScript, reducing load and display time by 60%.	

CERTIFICATIONS

Machine Learning for Data Science Projects- IBM SkillsBuild	August 2025
Responsive Web Design – Freecodecamp	June 2025
Data Analytics Bootcamp – Regex Software	January 2025
Java, Python, and JavaScript Certification – IIT Bombay	January 2024

EDUCATION

Lovely Professional University	Punjab, India
Master of Computer Applications: CGPA-8.1	Since August 2024
Cimage Professional College	Bihar, India
Bachelor of Computer Applications: CGPA-8.3	August 2021 – April 2024
Milia Convent School	Bihar, India
Intermediate	April 2018 – February 2020
PCB; Percentage: 76%
